ABOUT US

Baldi Srl is a dynamic and modern company specialized in:

- ♦ **Design, manufacturing, and trading of Fimsa brand forklift trucks ranging from 2 to 20 tons.**
- ♦ **Forklift rental services.**
- ♦ **Maintenance and scheduled servicing of forklifts of all brands.**
- ♦ **Production and rental of material transport carts.**

Designing according to customer specifications and customization of each machine for its intended technical use.

Battery life tailored to heavy and prolonged loads for all work shifts. High efficiency of all vehicles available for sale and rental.

Completely biodegradable lubricants. Selected components manufactured exclusively to Baldi's specifications, with a focus on environmental sustainability. Utilization of high-quality and durable construction materials.

Dedicated assistance, available 24/7, with performance monitoring services for forklifts on-site and remotely. Quick restoration of anomalies and provision of replacement machines for operational emergencies.
